I N T R O D U C T I O N

The Inventory of Agricultural Research, in two volumes, is an updating of statistical information, compiled annually since 1966, on research conducted by the USDA, State Agricultural Experiment Stations, Forestry Schools, and other cooperating institutions. The tables of data were designed to assist persons who carry out the "joint research program planning, evaluation, and coordination" recommended in the long-range study, A National Program of Research for Agriculture, published in October 1966. Data in these two volumes are for actual scientist man-years and funds in fiscal year 1971 and supersede the figures published in February 1972. The former practice of reporting estimates for the next fiscal year has been discontinued.

The annual inventory is compiled from input data supplied to the Current Research Information System (CRIS) by USDA research agencies on Forms AD 416, 417 and 418, and by State Agricultural Experiment Stations and other institutions on Forms AD 416 417 and 419. Forms used are shown on pages ix and x.

Volume I (Tables I-A and I-B) reports scientist man-years and amount of funds by each performing organization, by designated Research Problem Areas (RPA) and commodity subdivisions. The I-A tables give data for RPA commodity subdivisions; I-B tables show total research for each Research Problem Area. The 98 RPA's are listed in the Table of Contents. More complete description of RPA's and the revised classification by Activity, by Commodity, Resource or Technology, and by Field of Science will be found in the Manual of Classification of Agricultural and Forestry Research, June 1970, available from the Cooperative State Research Service, Current Research Information System, USDA.

Volume II (Tables II, III, IV) will give national, organizational, regional, and State summaries by commodity and by RPA, grouped by research program elements. Tables III and IV provide funding data by source.

Abbreviations, Definitions and Explanations - Table I

Subtables in Table I-A are arranged numerically by RPA and by commodity under each RPA. Under each subtable, performing organizations are grouped by regions for the State Agricultural Experiment Stations (SAES), Forestry Schools (FRSTY SCH), and other cooperating institutions (OCI), with subtotals for each region and a national total for all four regions. Only those Forestry Schools receiving funds under provisions of the McIntire-Stennis Act are included in the inventory. Wherever veterinary research is part of the State Agricultural Experiment Station programs, it is included in SAES. In universities where it is not part of the State Agricultural Experiment Station program it was not inventoried.

Performing organizations within USDA are grouped by research divisions and agencies, with totals for each division, subtotals for agencies, and a national total for USDA.

The final line of each subtable is a total for USDA, SAES, Forestry Schools, and other cooperating institutions. As USDA contracts with SAES and other institutions are reported by USDA as obligations (AD 416, Field 19) and by the SAES and other institutions as expenditures (AD 419, Fields 204 and 219), the final-line totals have been adjusted to eliminate "double counting" of scientists and funds involved. Scientist man-years (SMY) and funds allotted by USDA for contracts and grants are not included in the total. The final-line total, therefore, is an addition of the SAES-FRSTY SCH-OCI total and the USDA total, minus the total reported by USDA agencies for contracts and grants with SAES and other institutions.

Subtables in Table I-B follow the same order, with only one subtable for each RPA.

Column 2, "NO OF PROJ," gives the number of project classification lines on the input units.

"SCIENTIST MAN-YEARS," columns 3 and 4, includes for SAES, Forestry Schools, and other cooperating institutions all research workers with a rank of assistant professor or above. It excludes graduate assistants and research administrators. For staff members engaged in research and teaching (or other non-research activities), only the full-time equivalent of the portion of time devoted to research is included. A count of the different individuals engaged in the program would be greater than the scientist man-years reported. For USDA agencies, scientist man-years include research workers whose rating is GS-11 or above. It does not include those with GS-7 or GS-9 ratings or those engaged in research administration. Scientists who start work after July 1 of the fiscal year, or whose employment is terminated before June 30, are reported for only that portion of the year which represents actual employment. Column 4, for 1972, shows only asterisks, as no data are provided for fiscal year 1972. Likewise columns 6, 8, 10, 12, 14 and 16, with headings for 1972, show only asterisks, as no funding estimates for 1972 are provided. Columns headed "1971" are for fiscal 1971 (July 1, 1970 - June 30, 1971).

"REG FED APPR (CSRS ADMSTRD)," columns 5 and 7, means Regular Federal Appropriations (including those administered by the Cooperative State Research Service). For USDA research agencies, including CSRS in the case of Special Grants, the amounts reported are the sums of the amounts in Fields 101, 104, 105, 106 and 107 of Form AD 418 plus the amount in Field 19 of Form AD 416 for grants and contracts in the year of obligation. The second portion of this heading, "CSRS ADMSTRD," applies only to Federal Funds made available by CSRS to SAES, Forestry Schools, and other cooperating institutions. For these institutions, the amounts reported are the sums of the amounts in Fields 201, 202, 205 and 206 of Form AD 419.

"TOTAL FUNDS," columns 9 and 11, includes for USDA all funds under "REG FED APPR" plus "Other Federal Research Funds" as reported on Form AD 418 (excepting AID funds and PL 480 funds) plus "Non-Federal Research Funds" as reported

on Form AD 418. For SAES, Forestry Schools, and other cooperating institutions, "TOTAL FUNDS" includes "REG FED APPR" plus "Other Federal Research Funds" (excepting AID funds) as reported on Form AD 419 plus "Non-Federal Research Funds" as reported on Form AD 419.

"NET TO PROJ," columns 5 and 9, means "net to projects" and refer to funds reported on Forms AD 418 and AD 419. "GROSS," columns 7 and 11, means "gross expenditures including funds not allocated to projects" in the case of USDA agencies. Funds not allocated to projects are prorated to all the projects reported by a Department agency. "Net" and "Gross" figures are the same for all research reported by the State Agricultural Experiment Stations, Forestry Schools, and other cooperating institutions, except for Alabama where the "Gross" figures reflect the actual cost. For SAES, administrative costs are shown separately under the label "Administrative Project" and appear at the head of the list of Research Problem Areas. The nature and amount of funds not allocated to projects varies among the Stations and USDA agencies. It usually includes administration, supervision, and personnel and financial services. It may include publications and statistical services, rent, operation of research farms, and other expenditures that relate to several or all projects.

"USDA CON GT CA WITH SAES," columns 13 and 15, refer to contracts, grants, and cooperative agreements under which the USDA uses Federally appropriated funds to State Agricultural Experiment Stations, Forestry Schools, and other cooperating institutions for the performance of specific research tasks. They include CSRS "Special Grants" but not grants from other CSRS-administered funds. Manpower and fund data reported in these columns are also included in columns 3 through 11. State Agricultural Experiment Stations, Forestry Schools, and other cooperating institutions report expenditures of these funds in Fields 204 and 219 of Form AD 419. Scientist man-years supported by these funds are not reported separately for SAES et al in column 13 but are included in column 3. USDA agencies treat each contract, grant, or cooperative agreement with a State Station as a separate work unit or project. The amounts included in column 15 by USDA are reported in Field 19 of Form AD 416. They are reported in the fiscal year in which they were obligated. The SMYs in column 13 are reported in Field 95 of Form AD 416. This Field shows the expected scientist man-years to be "purchased," usually over a multi-year period, with the funds reported as obligated.

Totals for SAES-FRSTY-OCI and USDA, the final line for each subtable ("NAT TOT USDA-SAES-ETC"), have been adjusted to eliminate double counting of SMY and funds involved in USDA contracts and grants with SAES, Forestry Schools, and other cooperating institutions. See earlier reference in paragraph 3 under Abbreviations, Definitions and Explanations.
